KING'S APPEAL STIMULATES RECRUITING

Proclamation of King George and Execution of Edith Cavell Are Drawing Men to the Colors.

[By Associated Press.] London, Oct. 29.—There has been a great increase in recruiting throughout the country during the past week, according to a number of newspapers. The Manchester Guardian says recruiting is now going on at a higher rate than any reached since the early months of the war.

King George's proclamation and the execution of Miss Edith Cavell in Belgium both being the cause of bringing many into the ranks. The increase, it is noted, is despite the fact that Lord Derby's scheme has not yet been put into operation.

One of the chief obstacles confronting the authorities is the attitude of many employers, who not only are refusing to grant their men who join the colors allowances, as was done in the earlier stages of the war, but will not guarantee that employees who enlist shall be reinstated in their positions on their return. This matter is being investigated by labor leaders who probably will make a report to Lord Derby.

Arthur Henderson, president of the board of education, has addressed a circular appeal to the teachers throughout the country, urging all those who can to enlist.

"There is a time," says the circular, "when a man who is building must leave his work to guard against the destruction of the building itself. That time has now come."

FIRST CALL ON FOREIGN LOAN

Between Sixty and Seventy Million Dollars Will Be Placed at Disposal of Commission.

[By Associated Press.] New York, Oct. 29.—The first call for funds available from the Anglo-French \$500,000,000 credit loan was made Thursday by Paul H. Hingst, secretary of the Anglo-French commission, and Octave Homberg, one of the French members, who remained in this country to adjust matters in connection with the loan.

The call requests banks throughout the country where the funds have been deposited to remit by November 15, 15 per cent of the proceeds to the National City Bank here. It is expected the call will place at the disposal of the British and French governments between \$25,000,000 and \$30,000,000 by November 15. The sum will be checked out by Messrs. Hingst and Homberg as needed and when exhausted another call will be made.

About \$200,000,000 of the \$500,000,000 loan issue, it was authoritatively stated Thursday, has been withdrawn from public subscription by the banks and financial houses who are members of the underwriting syndicate. These will be retained by the banks as investments, according to present plans, leaving available for public purchase about \$300,000,000 of the loan. It was said this was fast being taken.

Agents of the Russian government, it was reliably reported here, are seeking to establish a credit loan in this country somewhat similar to the recent \$200,000,000 Anglo-French loan, although no head issue is contemplated. From \$25,000,000 to \$30,000,000 is wanted, and more if it can be obtained. It is reported that Russia is willing to pay as high as 5 per cent interest for a loan of this size.
